Frontend Developer currently completing a Higher Vocational Education program at Medieinstitutet in Malmö, with experience building stable and user-friendly web applications using React and TypeScript.

I bring 25 years of experience from a graphic production environment where quality, precision, and reliable delivery were central to daily work. Takes responsibility for assigned tasks, collaborates effectively with others, and focuses on building solutions that are reliable and practical.

Professional Experience

1999 – 2024

Flexographic Printer – Trioworld, Landskrona

Worked in fast-paced production environments with high demands on quality, precision, and delivery reliability. Responsible for color management and final output according to customer specifications, while developing strong problem-solving skills through continuously handling practical production challenges.

Accustomed to structured teamwork where accuracy, communication, and shared responsibility were key elements of the workflow.

Skills

React • TypeScript • Next.js • Node.js • Firebase • Git • HTML • CSS • Accessibility & UX/UI

Education

Frontend Development, Medieinstitutet Malmö: Aug 2024 – Apr 2026 (ongoing)

Higher Vocational Education program focused on modern web development. Advanced studies in JavaScript/TypeScript and React, with experience in API development, testing, and agile methodologies.

Accessibility, usability, and UX/UI are central components of the program. The education is highly practical and includes extensive internship periods (LIA) as well as projects in real-world development environments.

Languages & Additional Information

Languages: Swedish (native), English (professional proficiency), Spanish (professional proficiency)
Additional: Category B driver's license, Forklift license (A & B)

Portfolio

A selection of web applications I have developed, featuring well-structured code, maintainable architecture, and thoughtfully designed user experiences:
